

AMIT Rathode

Software Engineer | Full Stack Developer (Angular, Node.js, Express.js)

India | 7448052417 | rathodeamit1870@gmail.com | [LinkedIn](#) | [GitHub](#) | Portfolio

SUMMARY

Full-stack Software Engineer with 3 years of professional experience specializing in Angular, Node.js, Express.js, JavaScript, TypeScript, and enterprise application development. Started career as a Programmer Analyst Trainee Intern at Cognizant in April 2022, trained on MEAN Stack, SAP Sales Cloud, and SAP Service Cloud. Worked across multiple business domains: Procurement Systems, Employee Contract Management, and Sales Applications.

TECHNICAL SKILLS

Frontend: Angular 16+, PrimeNG, Bootstrap 5, HTML5, CSS3, JavaScript, TypeScript

Backend: Node.js, Express.js, REST APIs, JWT Auth, Middleware, Java, Spring Boot.

Databases: MongoDB, PostgreSQL, MySQL, SQL

Tools: Git, GitHub, Postman, Firebase, Puppeteer, Aws-EC2, SAP Sales Cloud, SAP Service Cloud

Others: Microservices basics, Docker beginner, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Developer – Augmented Transformation

Feb 10, 2024 – Present

Working on Kirloskar Powergen Sales Application, maintaining employee, dealer, channel, and product modules. Developing Angular 18 + PrimeNG frontend and Node.js/Express backend services, implementing lead generation, catalogues, media management, testimonials, and secure role-based access.

Full Stack Engineer – Contissoft Technologies

Sep 2023 – Jan 31, 2024

PROJECT: Procurement Portal

Built procurement lifecycle system including supplier onboarding, purchase orders, invoices, approvals, rejections, and payment workflows. Developed Angular front-end and Node/Express APIs, implemented vendor dashboards, and integrated chatbot for automation.

PROJECT: Employee Contract Management Portal

Developed contract lifecycle automation: creation, extension, approvals, and closure.
Implemented notification system for tenure expiry, generated end-letters using Puppeteer,
and created role-based dashboards.

Programmer Analyst Trainee → Full-Time Engineer – Cognizant

Apr 2022 – Aug 11, 2023

Completed MEAN Stack and SAP Sales/Service Cloud training. Worked on Online Beverages
Portal, created workflows, scripts, and sales process automation inside SAP Sales Cloud.
Continued as full-time engineer based on performance.

EDUCATION

Bachelor of Engineering (B.E.) – 2022

First Class with Distinction

STRENGTHS

Strong problem-solving, ownership mindset, quick learner, clean coding practices
